

CURRICULUM VITAE

EUBULUS J. KERR, III, M.D.

PHYSICIAN/PARTNER

Spine Institute of Louisiana

1500 Line Avenue

Shreveport, LA 71101

(318) 629-5555

(318) 629-5556 Fax

EMAIL: ekerr@louisianaspine.org

WEBSITE: <http://www.louisianaspine.org>

EDUCATION:

Undergraduate: Colorado State University
Fort Collins, Colorado
Biochemistry, Chemistry
Bachelor of Science – Biochemistry, 1990

Medical School: Wayne State University School of Medicine
Detroit, Michigan
Doctor of Medicine, 1996
Honors: Junior Yr. Clinical Clerkships, 1995
Recognition of Excellence Medical Pharmacology, 1994

Internship: Indiana University Medical Center
Indianapolis, Indiana, 1996-1997

Residency: Indiana University Medical Center
Indianapolis, Indiana
Orthopaedic Surgery, 1997-2001

Spine Fellowship: Frank Phillips, M.D.
Todd Wetzel, M.D.
Pernendu Gupta, M.D.
University of Chicago Spine Center
Weiss Memorial Hospital
Chicago, Illinois
Spine Fellowship, 2002

SPECIALIZED TRAINING:

Medtronic Satellite Training, Operated with Dr. Jorge Isaza, January 2006
SpinalMotion Kineflex Artificial Disc Comprehensive Training Program, November 2005
Charite ' Artificial Disc Comprehensive Training Program, December 16, 2004
Orthovita, Advances in Vertebroplasty, September 2004

CERTIFICATIONS:

American Board of Spine Surgery – Certified September 25, 2006
American Board of Orthopaedic Surgeons – Certified September 2004, Recertified June 2015

LICENSES:

Louisiana – 2004 – Present

Illinois – 2001 – 2004

MEDICAL PRACTICE:

Spine Institute of Louisiana – Shreveport, Louisiana – 2004 – Present

Louisiana State University Health Sciences Center – Assistant Professor – Department of Orthopedic Surgery – 2006 - 2015

Center for Orthopaedic Surgery and Sports Medicine – Indianapolis, Indiana – 2002 to 2004

HOSPITAL AFFILIATIONS:

Specialists Hospital Shreveport

Christus Schumpert Health System

Willis Knighton Health System

PROFESSIONAL AFFILIATIONS:

North American Spine Society

American Academy of Orthopaedic Surgeons

Louisiana State Medical Society

Shreveport Medical Society

PROFESSIONAL POSITIONS & APPOINTMENTS:

Partner - Spine Institute of Louisiana

Assistant Professor – Louisiana State University Health Sciences Center, Department of Orthopaedic Surgery

Medtronic Visiting Surgeon’s Program – Educator for DLIF Procedure

Board of Directors -- Spine Institute of Louisiana Foundation, Inc.

Board of Directors – Musculoskeletal Institute of Louisiana

Board of Managers – Specialists Hospital Shreveport

Medtronic Inside Track Program – Instructor

PERSONAL INFORMATION:

Date of Birth: January 22, 1968
Place of Birth: Palo Alto, California
Marital Status: Married to Gina Rauh Kerr
Children: Sophia, Sloane, Kennady, and Eubulus IV (EJ)

EXTRACURRICULAR ACTIVITIES:

Hunting, Basketball, Tennis

BOOK CHAPTERS:

Phillips FM, Pfeifer B, Lieberman I, Kerr E, Choi I, Pazianos A: Minimally Invasive Treatments of Osteoporotic Vertebral Compression Fractures: Vertebroplasty and Kyphoplasty. AAOS Instructional Course Lecture Series, Ch. 48 PP559-569, 2003

RESEARCH ACTIVITIES:

Safety and Effectiveness of Posterior Cervical Stabilization System (PCSS) as an adjunct to posterior cervical fusion when used in combination with ACDF in the treatment of multi-level cervical degenerative disease. 2020-Present

A Multi-Center, Prospective, Randomized Controlled Trial Comparing the Safety and Effectiveness of prodisc® C SK and prodisc® C Vivo to Mobi-C® Cervical Disc in the Treatment of Two-Level Symptomatic Cervical Disc Disease. 2020-Present

A Multi-Center, Prospective, Randomized Controlled Trial Comparing the Safety and Effectiveness of prodisc® C SK and prodisc® C Vivo to Mobi-C® Cervical Disc in the Treatment of Two-Level Symptomatic Cervical Disc Disease. 2020-Present

A prospective, randomized, controlled, single-blind, dose-finding, multi-center, parallel group study of the safety and efficacy of KUR-113 Bone Graft (TGplPTH1-34 in fibrin) versus local autograft for the treatment of patients undergoing single-level transforaminal lumbar interbody fusion (the STRUCTURE study). 2020-Present

Prospective evaluation of Lumbar Discectomy with Additional Implantation of an annular closure device in patients with large postsurgical annular defects for prevention of lumbar disc reherniation. 2019-Present

Confirmatory Clinical Study to Support the Effectiveness and Safety of Oxiplex® for the Reduction of Pain and Symptoms Following Lumbar Surgery. 2018-present

A Prospective, Randomized, Double-Blinded, Vehicle- and Placebo- Controlled, Multicenter Study to Evaluate the Safety and Preliminary Efficacy of IDCT in Subjects with Single-Level, Symptomatic Lumbar Intervertebral Disc Degeneration. 2018-Present

A Multi-Center, Open-Label Prospective Study of CervicalStim device™ as Adjunctive Treatment following Cervical Fusion. 2018-Present

A Multi-Center, Open-Label, Prospective Study of SpinalStim™ (MOP-SS) as Adjunctive Care following Lumbar Fusion Surgery. 2018-Present

A Prospective, Post Market, Multi-center, Open Label, Non-Randomized Clinical Study of the Efficacy of using Trinity ELITE® in Lumbar Fusion Surgery. 2018-Present

A 2 and 5 year comparative evaluation of clinical outcomes in the treatment of moderate lumbar spinal stenosis with the Superior® Indirect Decompression System (IDS) vs. direct decompression surgery for FDA Actual Conditions of Use Study. 2017-Present

The Rampart Duo Clinical (RaDical) Study: An Exempt Minimal Risk Post-Market Evaluation of Clinical Outcomes for a Novel Hybrid Device in Instrumented Lateral Lumbar Interbody Fusion. 2017-Present

Clinical Study Protocol for the Investigation of the Two Level Simplify Cervical Artificial Disc. 2017-Present

A 2 and 5 year comparative evaluation of clinical outcomes in the treatment of moderate lumbar spinal stenosis with the Superior® Indirect Decompression System (IDS) vs. direct decompression surgery for FDA Actual Conditions of Use Study. 2017-Present

Post-Market, 10 Year Follow Up of Mobi-C® Cervical Disc for One and Two Level Treatment of Cervical Disc Disease. 2016-2018

Clinical Investigation Plan for Post Approval 'Real Conditions of Use' Study, A 2 and 5 year comparative evaluation of clinical outcomes in the treatment of degenerative spinal stenosis with concomitant low back pain by decompression with and without additional stabilization using the coflex Interlaminar Technology for FDA real conditions of use study. 2016-Present

A phase 3, open-label study to evaluate the safety of oliceridine (TRV130) in patients with acute pain for which parenteral opioid therapy is warranted. 2016-2017

Prospective, Concurrently Controlled, Multi-Center Study to Evaluate the Safety and Effectiveness of the Spinal Kinetics™ M6-C Artificial Cervical Disc Compared to Anterior Cervical Discectomy and Fusion (ACDF) for the Treatment of Symptomatic Cervical Radiculopathy. 2016- Present

The Investigational Plan for the Evaluation of the ACADIA™ Facet Replacement System
2015-2018

Clinical Study Protocol for the Investigation of the Simplify™ Cervical Artificial Disc
2015-Present

A single-arm, prospective, multi-center study of Nucel® in patients receiving interbody fusion for one and two level degenerative disease of the lumbar spine. 2015-Present

A Prospective, Multicenter, Randomized, Double-blind, Placebo-controlled Study to Evaluate the Efficacy and Safety of a Single Injection of rexlemestrocel-L Alone or combined with Hyaluronic Acid (HA) in Subjects with Chronic Discogenic Lumbar Back Pain Through 12 Months. 2015-Present

A Phase 2b, Randomized, Double-Blind, Placebo-Controlled Study to Evaluate The Safety and Efficacy of Staphylococcus Aureus 4-Antigen Vaccine (SA4Ag) in Adults Undergoing Elective Posterior Instrumented Lumbar Spinal Fusion Procedures. 2015-Present

A prospective, non-randomized safety and efficacy study of patients receiving EXPAREL® for Treatment of Post-Operative Pain in the Cervical Spine. 2015-2016

A Multicenter, Open-label Study of SI-6603 in Patients with Lumbar Disc Herniation (Phase III). 2014-2017

A Multicenter, Randomized, Double-blind, Controlled, Comparative Study of SI-6603 in Patients with Lumbar Disc Herniation (Phase III). 2014-2017

Multi-Center Retrospective and Observational Data Registry for Clinical and Radiographic Outcomes of Spine Surgeries performed with the RAVINE® Lateral Access System.
2014-2016

Minimally Invasive Surgery for the Treatment of Adult Spinal Deformity: A Multicenter Registry. 2013-Present

Axiomed “Freedom Lumbar Artificial Disc”, FDA, Investigational Device Evaluation (IDE) study site. 2008—Present

A Prospective, multi-center, Randomized Study Comparing the VertiFlex® Superior™ Interspinous Spacer (ISS) to the X-STOP® Interspinous Process Decompression (IPD®) System in Patients with Moderate Lumbar Spinal Stenosis. 2008 – 2017

A Multi-Center, Prospective, Randomized, Controlled Clinical Trial Comparing the Safety and Effectiveness of the Mobi-C® Prosthesis to Conventional Anterior Cervical Discectomy and Fusion in the Treatment of Symptomatic Degenerative Disc Disease (DDD) in the Cervical Spine. 2006 - 2016

A non-randomized safety and efficacy study of patients receiving Nucel® bone graft for one or two level interbody fusion for degenerative disease of the lumbar spine. (Nucel-03) 2013-2015

Treatment of Lumbar Spinal Stenosis with X-STOP® PEEK Spacer in Moderately Symptomatic Patients. 2013-2015

A Study to Compare VITOSS Bioactive + BMA Versus Osteocel Plus through Radiological and Clinical Outcomes in Extreme-Lateral Interbody Fusions (XLIF). 2010

KAST Study: The Kiva™ System as a Vertebral Augmentation Treatment – A Safety and Effectiveness Trial. 2010-2014

Allosource (National Principal Investigator and medical monitor): A non-randomized prospective feasibility study of Adipose derived stem cell seeded on demineralized matrix (Allostem®) in patients receiving fusion for one and two level degenerative disease of the lumbar spine. 2010—2013

Clinical Trial Comparing the Blackstone Advent™ Cervical Disc to Anterior Cervical Discectomy and Fusion (ACDF) for the Treatment of One Level Degenerative Disc Disease (Principal Investigator). 2008 – 2013

Kineflex™ Lumbar Disc Arthroplasty, FDA, Investigational Device Evaluation (IDE) study site. 2006 to 2013

Kineflex/C™ Cervical Disc Arthroplasty, FDA, Investigational Device Evaluation (IDE) study site. 2005—2013

A Non-Randomized, Prospective, Multicenter Feasibility Study of the Disc Dynamics DASCOR® Disc Arthroplasty Device in the Treatment of Degenerative Disc Disease (Pilot Study). 2008 - 2010

Comparison of Dynamic Stabilization of the Lumbar Spine with the Stabilimax NZ Dynamic Spine Stabilization System to Posterolateral Instrumented Fusion. 2007-2010

A Randomized, Controlled Clinical Study to Evaluate the Safety and Effectiveness of Cortoss® Synthetic Cortical Bone Void Filler in Vertebral Augmentation. FDA Investigational Device Evaluation (IDE) study site. 2006 – 2009

Comparison of Static versus Dynamic Plating in Anterior Cervical Fusion for 1, 2 & 3 Level Fusions. Class I, Prospective, Randomized, IRB approved Study. 2002-2008

Pars Fracture Fixation for Grade I Spondylolisthesis using ISOLA Instrumentation, a Unique Construct. 2001

Osiris: Lumbar interbody fusion procedures with osteoconductive mesenchymal stem-cells allograft: safe and effective alternative to bone morphogenetic protein.

Investigation of: “An In Vitro Model of Fibroblast Activity and Adhesion Formation During Flexor Tendon Healing”. 1995 – 1996

Investigation of: “Glutamine Activity During Compensatory Metabolic Acidosis in Pig Kidney Tubule Cells” - Colorado State University – 1990

PRESENTATIONS:

International:

Minimally Invasive Transforaminal Lumbar Interbody Fusion: Indications, Technique and Advantages. 17th Annual London Imperial Spine Course. London, England – March 2011

Kerr EJ, Jawahar A, Cavanaugh DA and Nunley PD: Lumbar interbody fusion procedures with osteoconductive mesenchymal stem-cells allograft: safe and effective alternative to bone morphogenetic protein. Podium. 14th Annual European Federation of Neurological Surgery Congress, Geneva, Switzerland - September 2010

Kyphoplasty combined with Percutaneous Osteotomy for the Treatment of Kyphosis Associated with Non-Acute Osteoporotic Vertebral Fractures. Phillips FM, Campbell-Hupp M, Kerr E. 10th International Meeting on Advanced Spine Techniques. Rome, Italy – May 2002

Balloon Kyphoplasty for the Treatment of Painful Spinal Deformity Resulting From Osteoporotic Vertebral Compression Fractures. Phillips FM, Ho E, Campbell-Hupp M, Kerr E, Wetzel T, Gupta P. North American Spine Society 17th Annual Meeting. Montreal, Canada – 2002
